Doctor's Note in EMR

Sam would like to discuss "Stomachache". Complains of abdominal pain which is 4/10, comes and goes, dull and tight in nature, and mostly in the middle abdominal region. Abdominal pain improves with rest and eating.

Allscripts | Developer Program

Efficiency across the care continuum

Solution

Text pre-visit questionnaires. Ask questions doctor asks. No app to download.

Automated provider note already deeply integrated into EHR.

Patient data already in physician note. Provide clinical note support.

- ✓ More personalized care
- ✓ More accurate treatment
- ✓ Higher efficiency of care
- ✓ Better patient & provider experience
