

Get Patients All Their Specialty Medications Faster and Easier—and Get Your Focus Back Where it Belongs

AccelRx delivers an automated and comprehensive platform to help you streamline specialty medication fulfillment for your patients. With faster time-to-therapy comes better odds for medication adherence and positive outcomes, as well as fewer phone calls and faxes for your staff.

An end-to-end solution that is integrated within your EHR, AccelRx helps you ensure that the accurate, complete information needed for specialty medication prescriptions is efficiently managed and communicated to specialty medication hubs and specialty pharmacies, from enrollment to prescription, consent to prior authorization information.

Automatic population

Automatically populate patient data on Prior Authorization (PA) and other forms with the click of a button

Maximize efficiency

Maximize efficiency with onsite and mobile consent capture and no-touch eFax

Enhance management

Enhance your management of the most specialty drugs all in one place

Gain Access

Access an EHR-integrated solution to send clean and valid Rxs to the correct specialty pharmacy

**WHAT
CAN I DO
DIFFERENTLY
WITH
ACCEL Rx?**

AccelRx delivers a single user-friendly platform to help you transform specialty medication management.

WITH
AccelRx

Paper Enrollment Forms

Inefficient, error-prone, easily lost or damaged

Missing Patient Signatures

Lack of patient consent can bring fulfillment to a halt

Back-and-Forth Communication

Staff time lost on calls from pharmacists seeking Rx info

Blurry Faxed Documents

Hard to read, resulting in mistakes, re-work and delay

Inefficient Prior Authorization

Management of PA is time-consuming and frustrating

Inability to Track Rx Status

Lack of transparency into where a given Rx is in the process at a given time

Streamlined Prescribing

- ✓ Stop chasing down incomplete forms and missing data
- ✓ Auto-populate forms
- ✓ Electronically send clean and valid Rxs to the right specialty pharmacy and PAs

Electronic Patient Consent

- ✓ Obtain consent digitally during the patient visit
- ✓ Or easily send an electronic request post-visit

Rx Tracking Insight

- ✓ Add transparency across the entire Rx fulfillment process
- ✓ Confirm medication delivery and track adherence

AccelRx can help you reduce time to fulfillment for your specialty medication patients, improve specialty medication adherence, and drive improved patient and staff satisfaction.
