

iScribeHealth is a powerful tool that significantly reduces the administrative burden on physicians.

iScribeHealth offers HIPAA-compliant documentation services that fully integrate with your EHR to streamline medical documentation and restore an authentic physician-patient relationship.

iScribeHealth's easy-to-use mobile app gives providers anytime/anywhere access via iPhone or iPad to view and enter clinical information for patients. We leverage industry-leading speech-to-text technology to increase provider efficiency. We also offer transcription and Virtual Scribe services for a complete “hands-off” EHR experience.

iScribeHealth Services:

- iScribe Mobile (speech-to-text)
- Virtual Scribe Services
- AirMic (speech-to-text)
- Transcription
